André dos Santos

Postdoc · Industrial Engineer · Professor

+1 (306) 570 - 1413 | dossantos@ualberta.ca | https://andreeds.github.io/

Experience

Computing Science Department - University of Alberta — *Edmonton, Canada*

Postdoctoral Researcher

Explainability of NLP Models — *Present*

Computer Science Department - University of Regina — *Regina, Canada*

Sessional Lecturer

CS340 Advanced Data Structures and Algorithm Design — *Summer 2020*
CS330 Introduction to Operating Systems — *Winter 2020*
CS115 Object-Oriented Design — *Winter 2020*
CS310 Discrete Computational Structures — *Fall 2019*

Guest Lecturer

CS875 Database Systems — *Fall 2018*
CS838 Uncertain Reasoning in AI — *Spring 2017*

Lab instructor & Marker

CS210 Data Structures and Abstractions — *2019*
CS215 Web and Database Programming — *2018*
CS110 Programming and Problem Solving — *2015 - 2019*

Audio Visual Services - University of Regina — *Regina, Canada*

Clerical Clerk — *2015 - 2019*
Distant education broadcasting operator — *Winter 2016*
Co-op placement — *Fall 2013*

Guhring Brasil Ferramentas LTDA — *Joinville, Brazil*

Logistic Analyst — *2011 - 2012*

Education

University of Regina — *Regina, Canada*

Ph.D. of Science Student in Computer Science — *2016 - 2020*
Study emphasis Deep Learning & Probabilistic Graphical Models

Master of Science in Computer Science — *2015 - 2016*
Study emphasis Probabilistic Graphical Models

University of Santa Catarina State — *Joinville, Brazil*

Bachelor of Industrial System Engineering — *2009 - 2014*

SENAI — *Joinville, Brazil*

Industrial Training Course - Electrician — *2007*

Skills

Artificial Intelligence · Machine Learning · Industry 4.0 · Web Development · Engineering · Bayesian Networks · Join Tree Propagation · Python · C++ · R · JavaScript · PHP · MySQL

Publications

Refereed Conference Papers

1. C. J. Butz, J. S. Oliveira, A. E. dos Santos, and A. L. Teixeira. Deep convolutional sum-product networks. In *Thirty-Third AAAI Conference on Artificial Intelligence (AAAI)*, 2019
2. C. Butz, A. L. Teixeira, A. E. Dos Santos, and J. S. Oliveira. On the tree structure of deep convolutional sum-product networks. In *Thirty-Second International Florida Artificial Intelligence Research Society Conference (FLAIRS)*, pages 500–503, 2019
3. C. J. Butz, A. E. dos Santos, J. S. Oliveira, and A. L. Madsen. Exploiting symmetry of independence in d-separation. In *Thirty-second Canadian Conference on Artificial Intelligence (AI)*, pages 42–54, 2019
4. A. L. Madsen, C. J. Butz, J. Oliveira, and A. E. dos Santos. Solving influence diagrams with simple propagation. In *Thirty-second Canadian Conference on Artificial Intelligence (AI)*, pages 68–79, 2019
5. C. J. Butz, J. S. Oliveira, A. E. dos Santos, and A. L. Madsen. An empirical study of Bayesian network inference with simple propagation. *International Journal of Approximate Reasoning (IJAR)*, 92:198–211, 2018
6. A. L. Madsen, C. J. Butz, J. S. Oliveira, and A. E. dos Santos. Simple propagation with arc-reversal in bayesian networks. In *Ninth International Conference on Probabilistic Graphical Models (PGM)*, 2018
7. C. J. Butz, A. E. dos Santos, J. S. Oliveira, and J. Stavrinides. Efficient examination of soil bacteria using probabilistic graphical models. In *Thirty-first International Conference on Industrial, Engineering & Other Applications of Applied Intelligent Systems*, pages 315–326, 2018
8. C. J. Butz, J. S. Oliveira, and A. E. dos Santos. On learning the structure of sum-product networks. In *2017 IEEE Symposium Series on Computational Intelligence (SSCI)*, pages 1–8, 2017
9. A. E. dos Santos, C. J. Butz, and J. S. Oliveira. On converting sum-product networks into bayesian networks. In *Thirtieth Canadian Conference on Artificial Intelligence (AI)*, pages 329–334, 2017
10. J. S. Oliveira, C. J. Butz, and A. E. dos Santos. Resolving inconsistencies of scope interpretations in sum-product networks. In *Thirtieth Canadian Conference on Artificial Intelligence (AI)*, pages 305–315, 2017
11. C. J. Butz, A. E. Dos Santos, and J. S. Oliveira. On finding relevant variables in discrete bayesian network inference. In *Thirtieth International Florida Artificial Intelligence Research Society Conference (FLAIRS)*, pages 730–735, 2017
12. C. J. Butz, A. E. dos Santos, and J. S. Oliveira. Relevant path separation: A faster method for testing independencies in bayesian networks. In *Eighth International Conference on Probabilistic Graphical Models (PGM)*, pages 74–85, 2016
13. C. J. Butz, J. S. Oliveira, A. E. dos Santos, and A. L. Madsen. Bayesian network inference with simple propagation. In *Twenty-ninth International Florida Artificial Intelligence Research Society Conference (FLAIRS)*, pages 650–655, 2016
14. C. J. Butz, A. E. dos Santos, J. S. Oliveira, and C. Gonzales. On a simple method for testing independencies in bayesian networks. *Computational Intelligence (CI)*, 34(3):789–801, 2017
15. A. L. Madsen, C. J. Butz, J. S. Oliveira, and A. E. dos Santos. On tree structures used by simple propagation. In *Twenty-ninth Canadian Conference on Artificial Intelligence (AI)*, pages 207–212, 2016
16. C. J. Butz, J. S. Oliveira, A. E. dos Santos, and A. L. Madsen. Bayesian network inference with simple propagation. In *Twenty-ninth International Florida Artificial Intelligence Research Society Conference (FLAIRS)*, pages 650–655, 2016
17. C. J. Butz, J. S. Oliveira, A. E. dos Santos, and A. L. Madsen. Testing independencies in bayesian networks with i-separation. In *Twenty-ninth International Florida Artificial Intelligence Research Society Conference (FLAIRS)*, pages 644–649, 2016
18. C. Butz, J. Oliveira, and A. dos Santos. Darwinian networks. In *Twenty-eighth Canadian Conference on Artificial Intelligence (AI)*, pages 16–29, 2015
19. C. J. Butz, J. S. Oliveira, and A. E. dos Santos. Determining good elimination orderings with Darwinian networks. In *Twenty-eighth International Florida Artificial Intelligence Research Society Conference (FLAIRS)*, pages 600–603, 2015
